Judge Rodney W. Sippel

RE: USA v. OSCAR MIMS  
CN. 4:13CR164RWS

Judge Sippel:

I'm writing you again about my troubles I'm having here at St. Charles Dept. of Correction. Staff members here are intentionally keeping me from utilizing the law library or the typewriter when I fill out request forms to access these items, not all staff members but some of the higher ups and about two of the correctional officers. The one day out of the week when I do probably get it I know that the facility hasn't been utilized by what I left in there recently and a couple of staff members also informed me what is going on. It seems that I'm a federal detainee and I don't have a problem questioning them about certain policies that they don't abide by I'm a trouble maker and a convict that doesn't have any rights out here. They are charging me for medical if I need to see a doctor or nurse and they don't respond to the concern forms that I fill out when I'm having problems

that need to be answered. As I said before my fiancé has notified the Marshall service and they say they will try to fix it, but I haven't heard from them. Judge Sippel I don't mean to be a nuisance but can you please get me closer to family and somewhere where I can utilize the law library and a Typewriter when needed. I'm not here to play chess, watch television, play basketball or participate in any Volley that is going on around here, I'm trying to get back to my fiancé, child and family and out here in St. Charles where they disrespect my culture and suppress me on a daily basis is stressing me out.

Sincerely  
Oscar Wims
